

Aquatic Animals

What are Aquatic Animals?

WATER OR AQUATIC ANIMALS ARE EITHER VERTEBRATE OR INVERTEBRATE ANIMALS, WHICH LIVE IN AQUATIC ALL THROUGH OR MOST OF THEIR LIFE. THESE ANIMALS MAY BREATHE AIR THROUGH LUNGS OR GILLS BY EXTRACTING THE OXYGEN THAT IS DISSOLVED IN WATER.

Turtle

TURTLES ARE COOL REPTILES WITH A SPECIAL SHELL COVERING THEIR BODIES, LIKE A BUILT-IN SUIT OF ARMOR! THEY CAN PULL THEIR HEADS AND LEGS INSIDE THIS SHELL TO HIDE FROM DANGER. TURTLES LIVE IN DIFFERENT PLACES LIKE THE OCEAN, LAKES, AND EVEN ON LAND. THEY NEED SUNSHINE TO STAY WARM BECAUSE THEY CAN'T MAKE THEIR OWN HEAT. SOME TURTLES EAT PLANTS, WHILE OTHERS LIKE TO MUNCH ON INSECTS OR FISH. DID YOU KNOW TURTLES CAN LIVE FOR A REALLY LONG TIME? AND WHEN THEY'RE READY TO HAVE BABIES, THEY BURY THEIR EGGS IN THE SAND.

Star Fish

STARFISH, ALSO CALLED SEA STARS, ARE AMAZING CREATURES THAT LIVE IN THE OCEAN. THEY HAVE A ROUND BODY WITH FIVE ARMS THAT CAN LOOK LIKE A STAR, WHICH IS WHY THEY'RE CALLED STARFISH! STARFISH COME IN MANY COLORS, LIKE RED, ORANGE, AND BLUE. THEY USE TINY TUBE FEET TO MOVE AROUND AND TO HOLD ONTO ROCKS AND SHELLS. STARFISH LIKE TO EAT THINGS LIKE CLAMS AND MUSSELS, AND THEY HAVE A SPECIAL WAY OF OPENING THEIR PREY WITH THEIR STRONG ARMS. DID YOU KNOW THAT SOME STARFISH CAN EVEN GROW BACK LOST ARMS? STARFISH ARE SUPER COOL ANIMALS THAT MAKE THE OCEAN A COLORFUL AND INTERESTING PLACE TO EXPLORE!

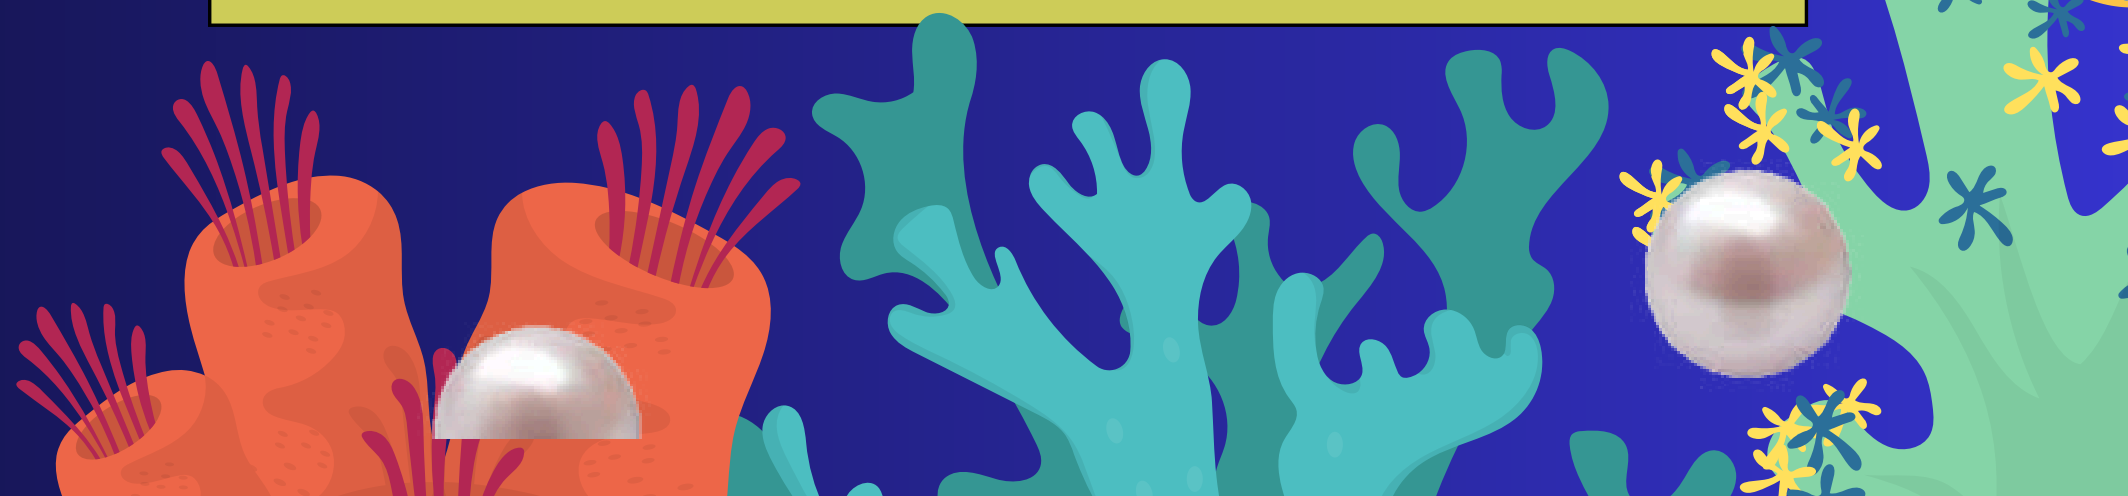

Seahorse

SEAHORSES ARE FASCINATING FISH THAT LIVE IN THE OCEAN. THEY LOOK A BIT LIKE TINY HORSES WITH CURLY TAILS AND LONG SNOUTS. SEAHORSES COME IN DIFFERENT COLORS, LIKE YELLOW, ORANGE, AND EVEN RAINBOW! THEY ARE NOT STRONG SWIMMERS LIKE OTHER FISH; INSTEAD, THEY USE THEIR CURLY TAILS TO HOLD ONTO SEAWEED AND OTHER PLANTS IN THE OCEAN. SEAHORSES HAVE TINY MOUTHS AND EAT TINY SHRIMP AND OTHER SMALL CREATURES. DID YOU KNOW THAT MALE SEAHORSES ARE THE ONES WHO CARRY THE BABIES? THEY HAVE A SPECIAL POUCH ON THEIR BELLY WHERE THE FEMALE SEAHORSE LAYS HER EGGS.

Whale

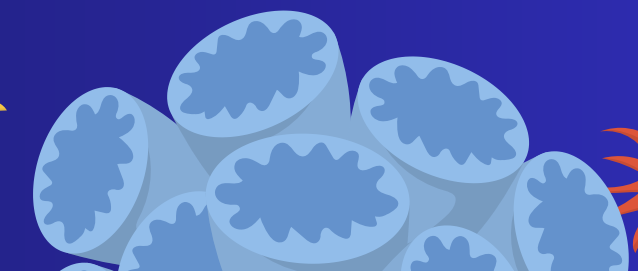

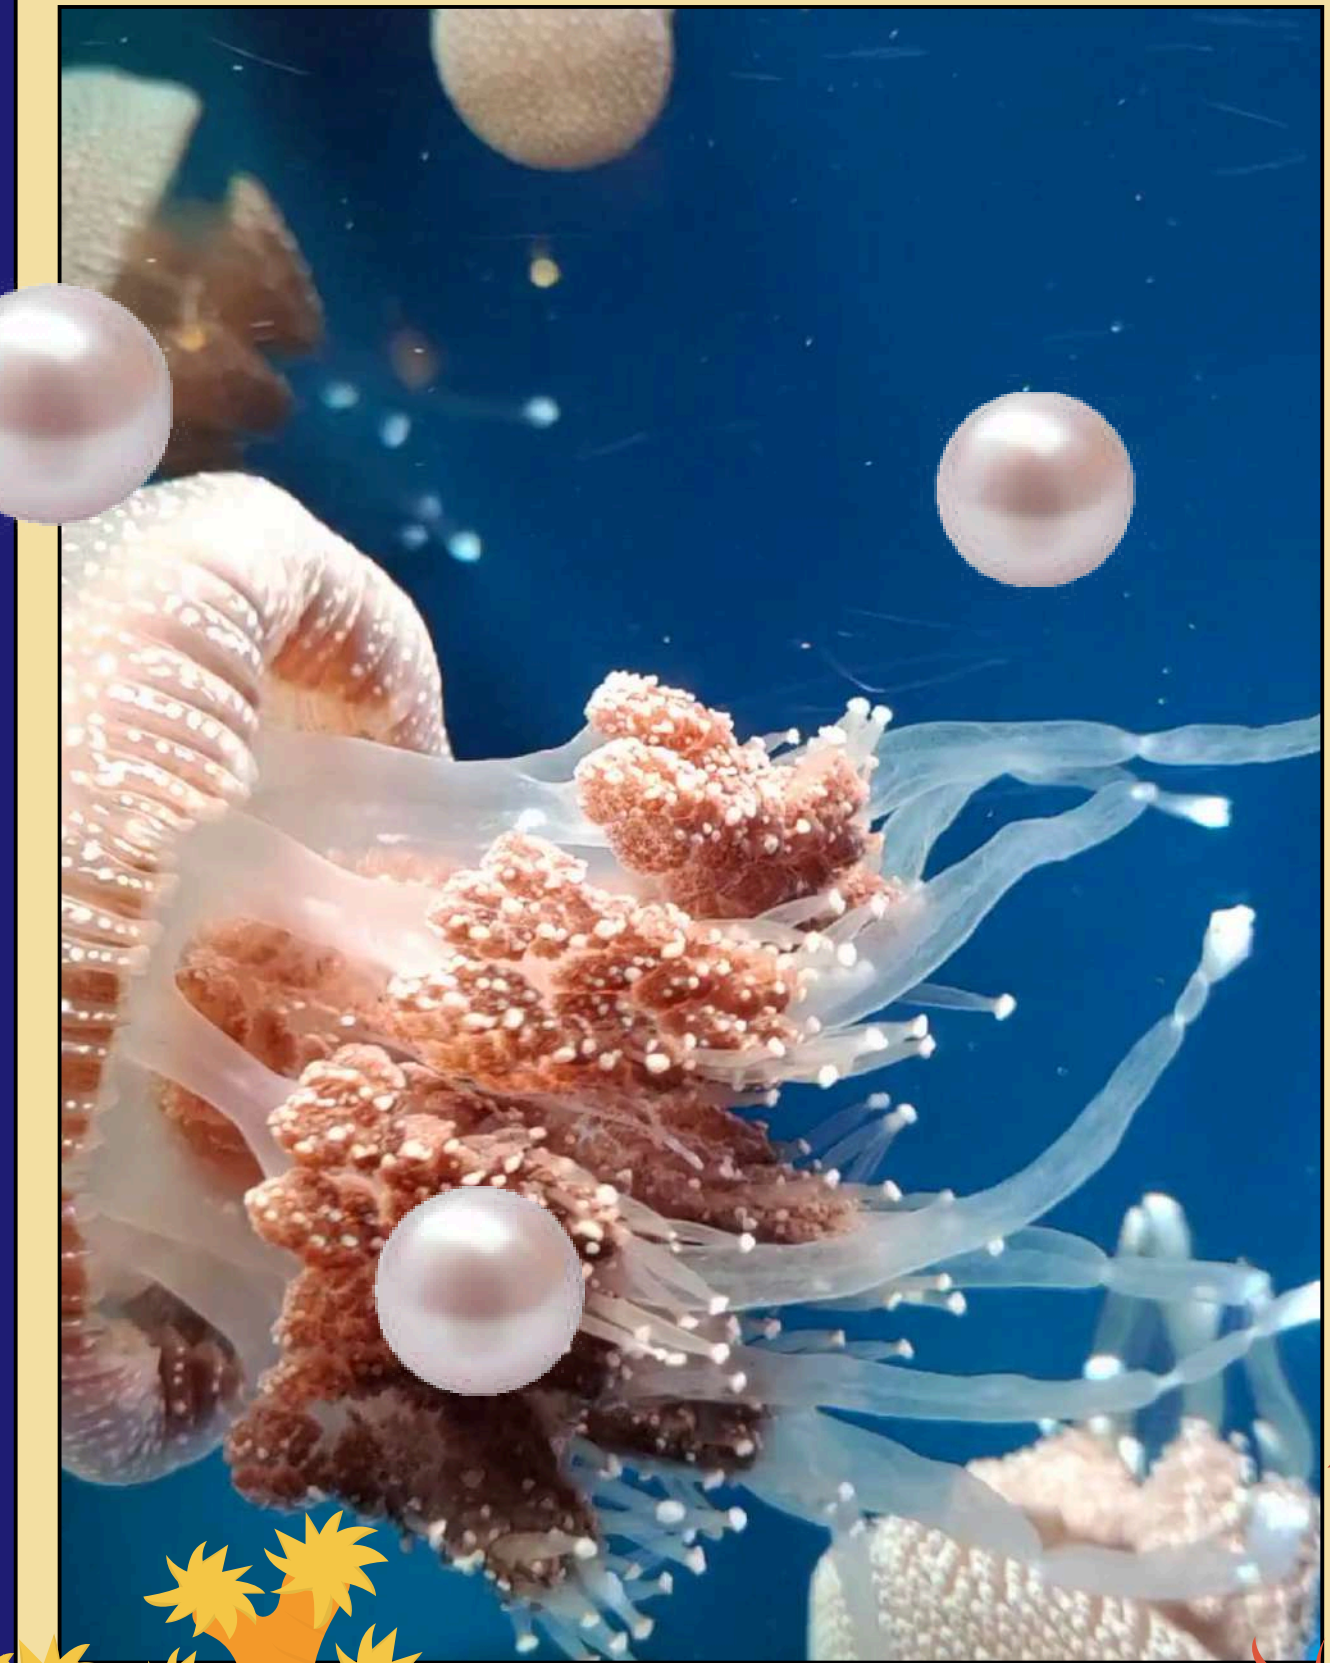

THEY ARE THE LARGEST ANIMALS
WHALES COME IN DIFFERENT
SHAPES AND SIZES, THEY HAVE
SMOOTH SKIN AND A BIG MOUTH
WITH BALEEN PLATES OR TEETH FOR
CATCHING FOOD. WHALES LOVE TO
SWIM AND PLAY IN THE OCEAN, AND
THEY CAN JUMP REALLY HIGH OUT
OF THE WATER! DID YOU KNOW THAT
WHALES BREATHE AIR, JUST LIKE WE
DO? THEY HAVE TO COME UP TO
THE SURFACE OF THE WATER TO
TAKE A BREATH. WHALES ARE
FRIENDLY AND GENTLE GIANTS

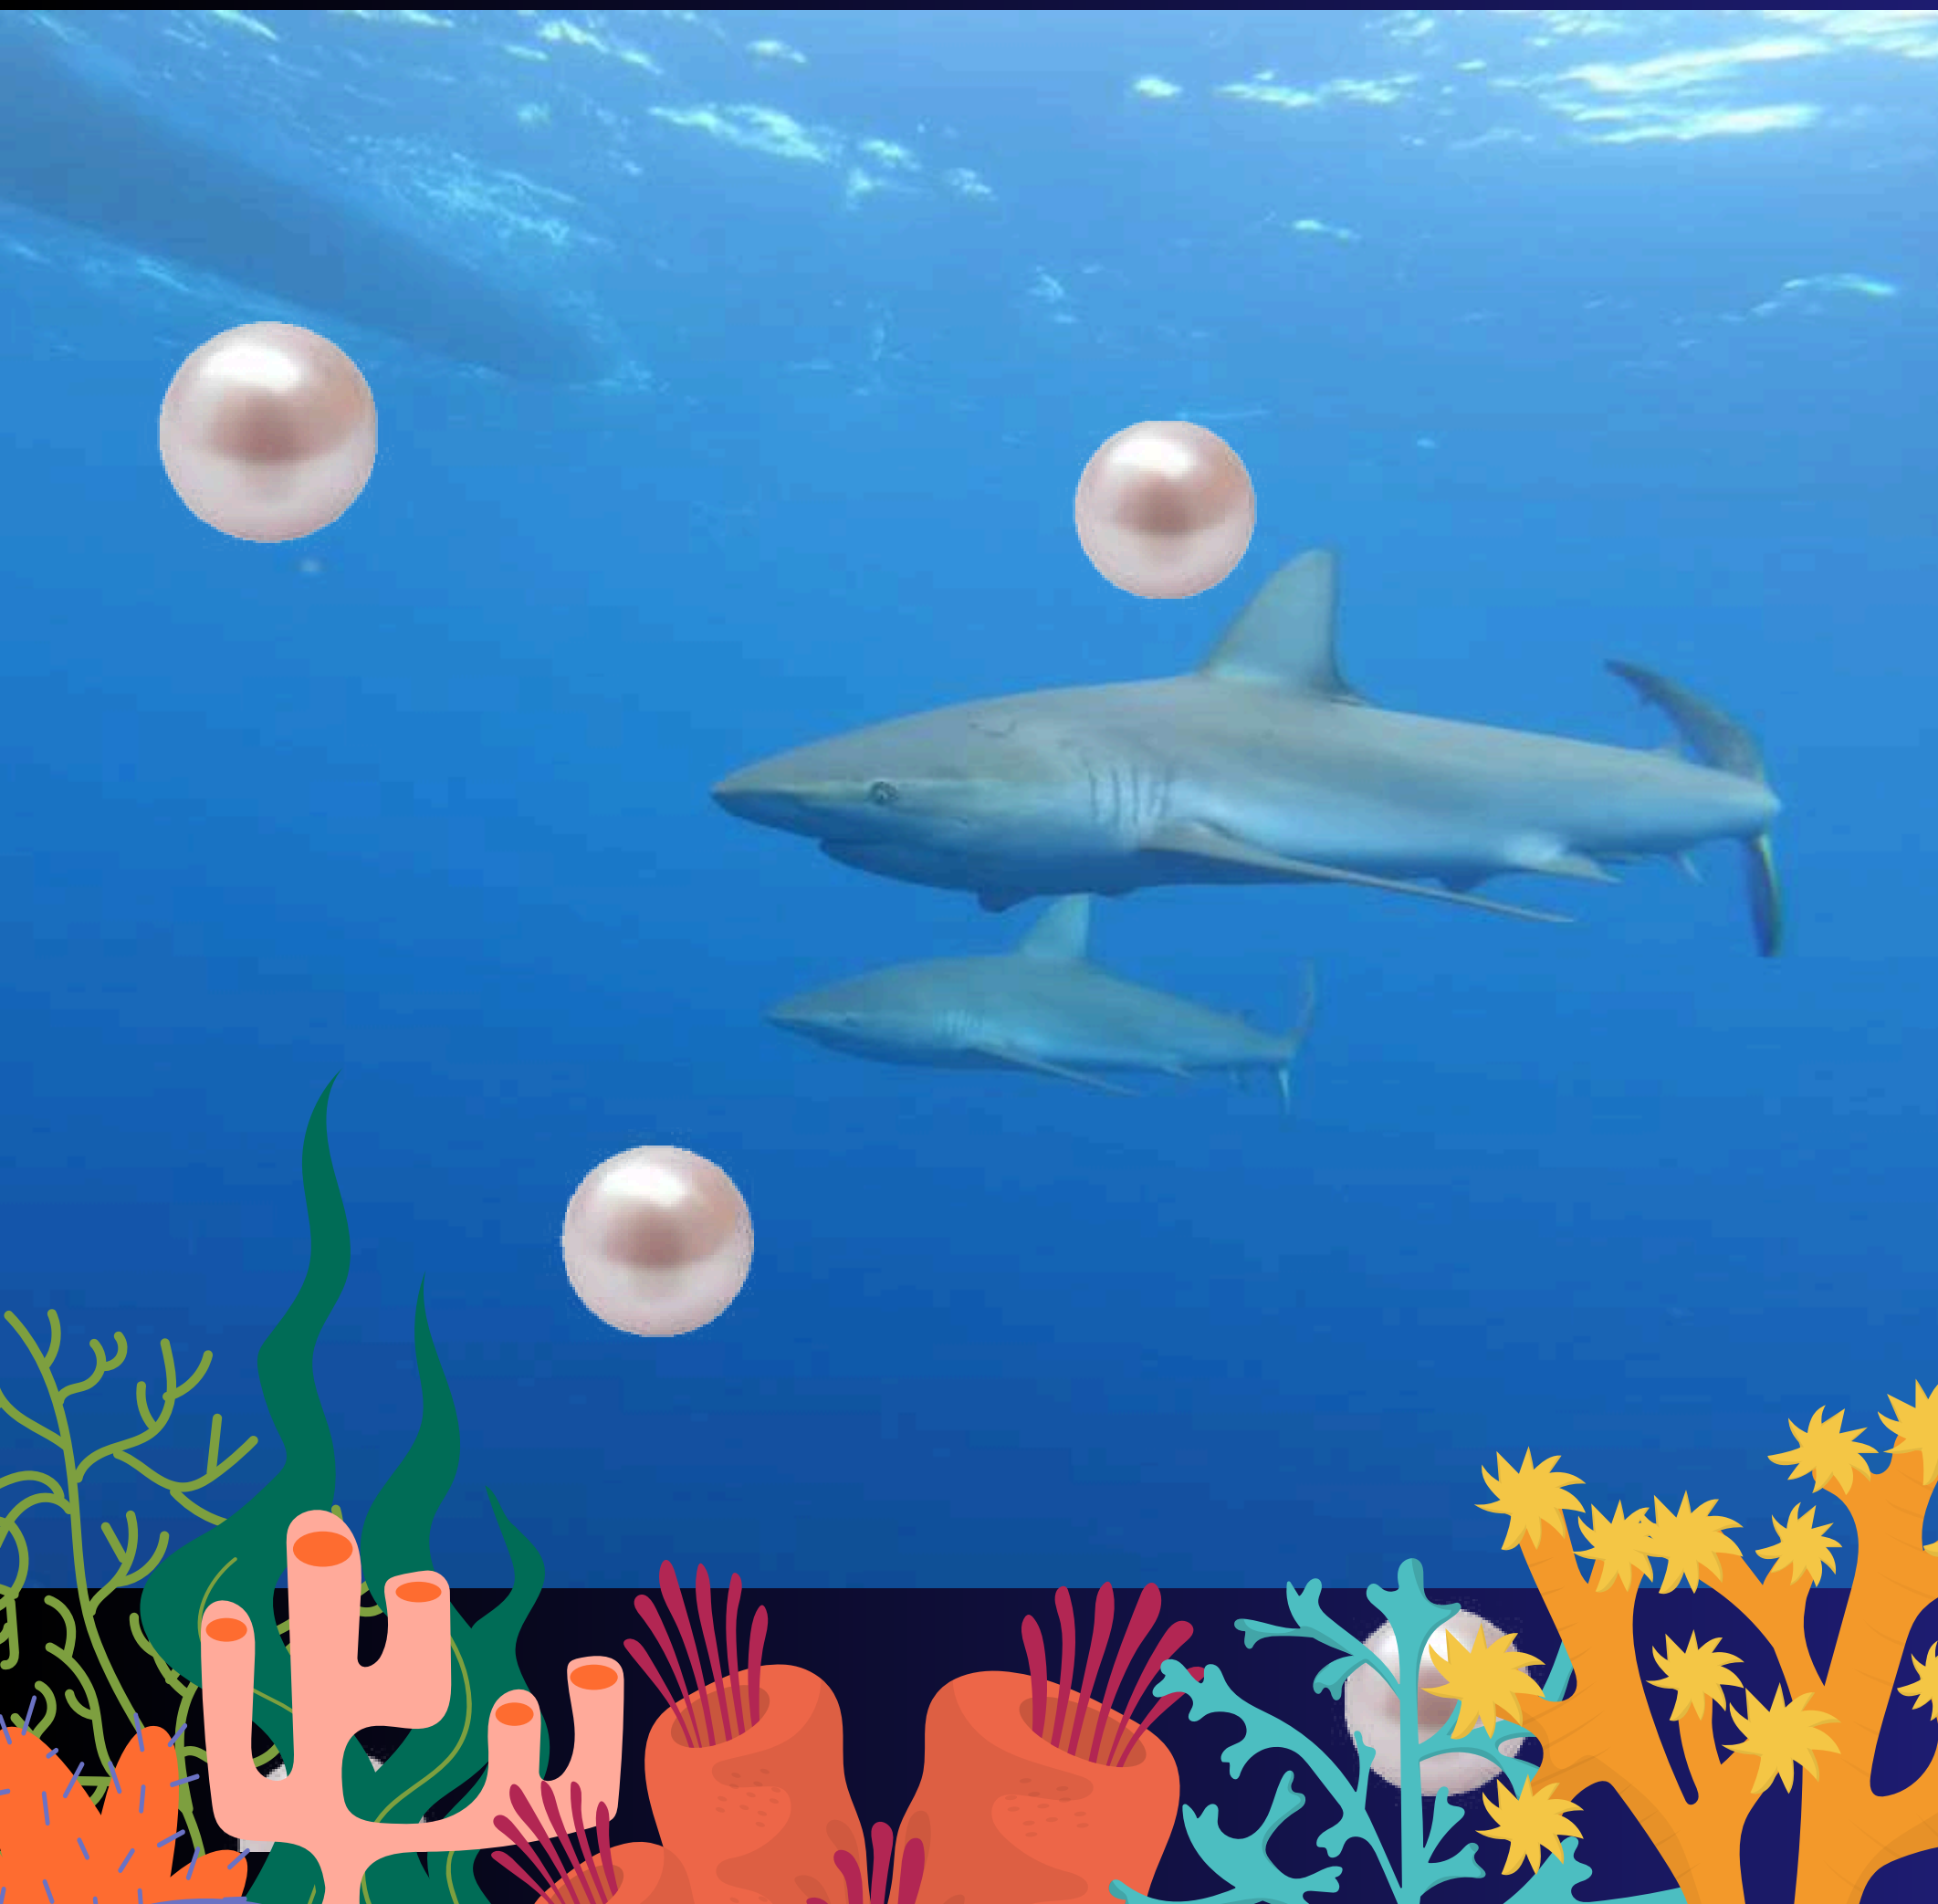

Jellyfish

THEY'RE LIKE BEAUTIFUL, FLOATING UMBRELLAS WITH LONG, WAVY TENTACLES! JELLYFISH COME IN ALL SORTS OF COLORS, LIKE PINK, BLUE, AND EVEN GLOWING GREEN. BUT WATCH OUT, BECAUSE SOME JELLYFISH CAN STING IF YOU TOUCH THEM. THEY DON'T HAVE BONES, BRAINS, HEART, OR HEAD LIKE WE DO, BUT THEY HAVE SPECIAL STINGERS IN THEIR TENTACLES TO CATCH FOOD AND PROTECT THEMSELVES. THEY HAVE BEEN AROUND FOR MILLIONS OF YEARS. THEY'RE SOME OF THE OLDEST ANIMALS IN THE OCEAN!

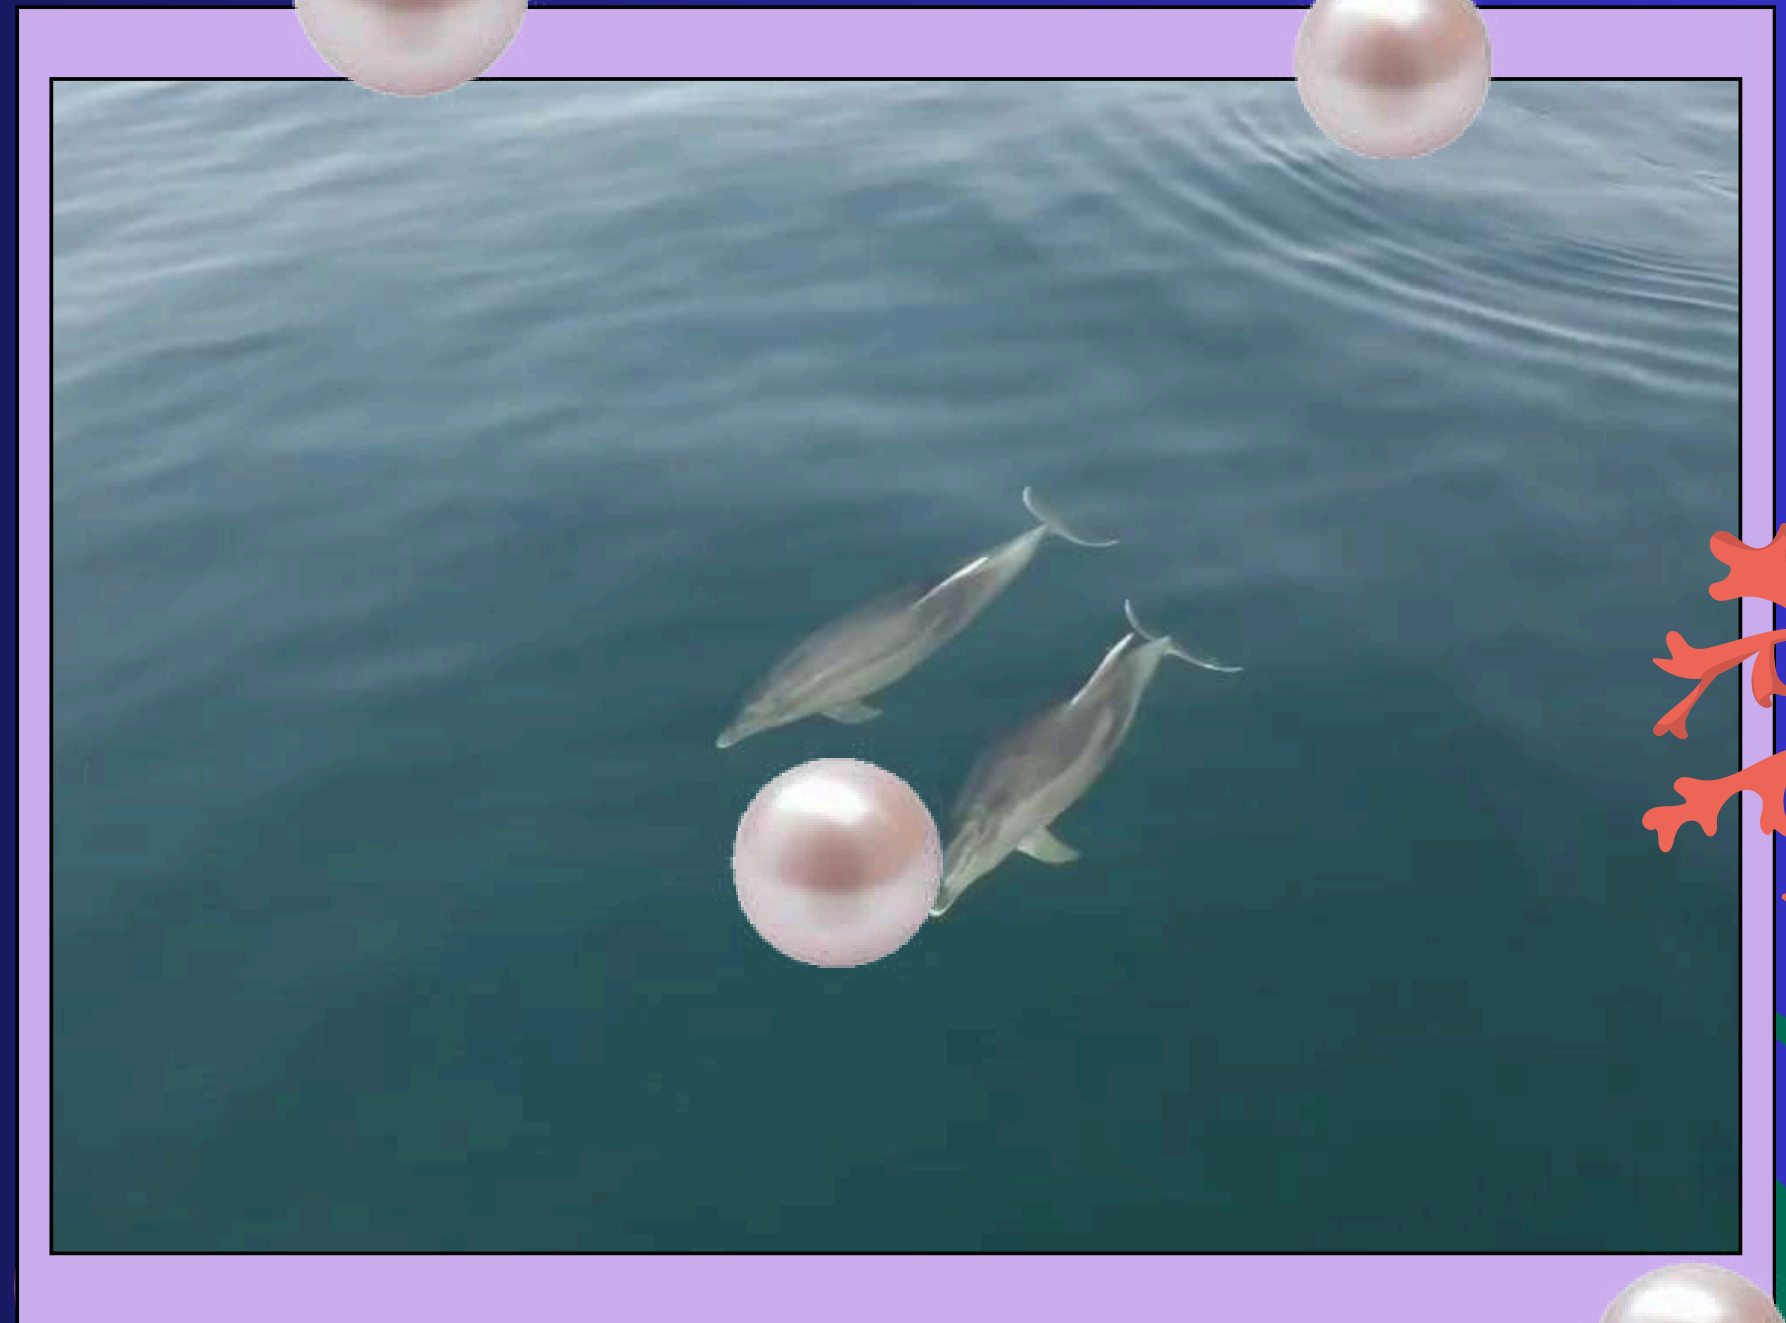

Shark

IT IS ONE OF THE MOST WELL-KNOWN SPECIES OF THE AQUATIC ANIMALS AND THE LARGEST PREDATORS IN THE OCEANS.

THEY'RE LIKE UNDERWATER SUPERHEROES WITH SHARP TEETH AND SLEEK BODIES! SHARKS COME IN ALL SHAPES AND SIZES, FROM THE TINY DWARF LANTERN SHARK TO THE MIGHTY GREAT WHITE SHARK. THEY HAVE SUPER SENSES THAT HELP THEM FIND FOOD, LIKE THEIR KEEN SENSE OF SMELL AND SHARP EYESIGHT. SHARKS MAY ATTACK HUMANS, BUT THEY DON'T EAT THEM AS HUMANS LACK FAT.

Dolphin

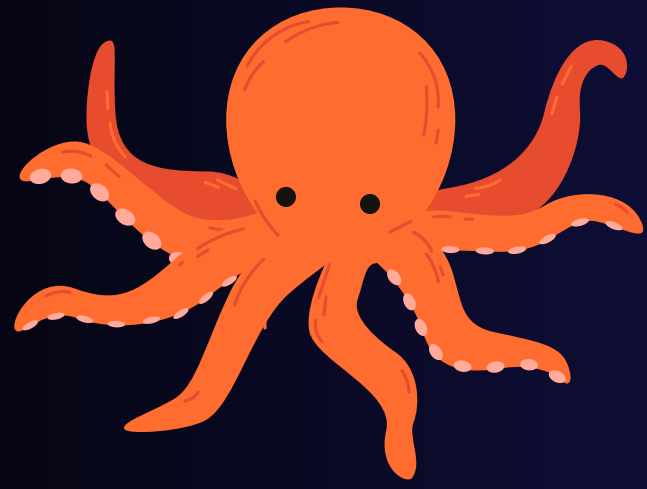

DOLPHINS ARE LIKE SUPER SWIMMERS WITH SLEEK BODIES AND FRIENDLY FACES! THEY COME IN DIFFERENT SIZES AND COLORS, FROM THE PLAYFUL BOTTLENOSE DOLPHIN TO THE SPEEDY SPINNER DOLPHIN. THEY LOVE TO SWIM AND JUMP OUT OF THE WATER, DOING FLIPS AND TWISTS IN THE AIR. DOLPHINS ARE VERY SMART AND CAN COMMUNICATE WITH EACH OTHER USING CLICKS AND WHISTLES. THEY ALSO LIKE TO PLAY GAMES WITH EACH OTHER AND WITH PEOPLE!

An illustration of two cuttlefish in an underwater scene. The cuttlefish are pinkish-brown with long, wavy tentacles. They are surrounded by green seaweed, orange coral, and yellow conch shells. Three large, white, pearl-like spheres are floating in the water. The background is a solid blue color.

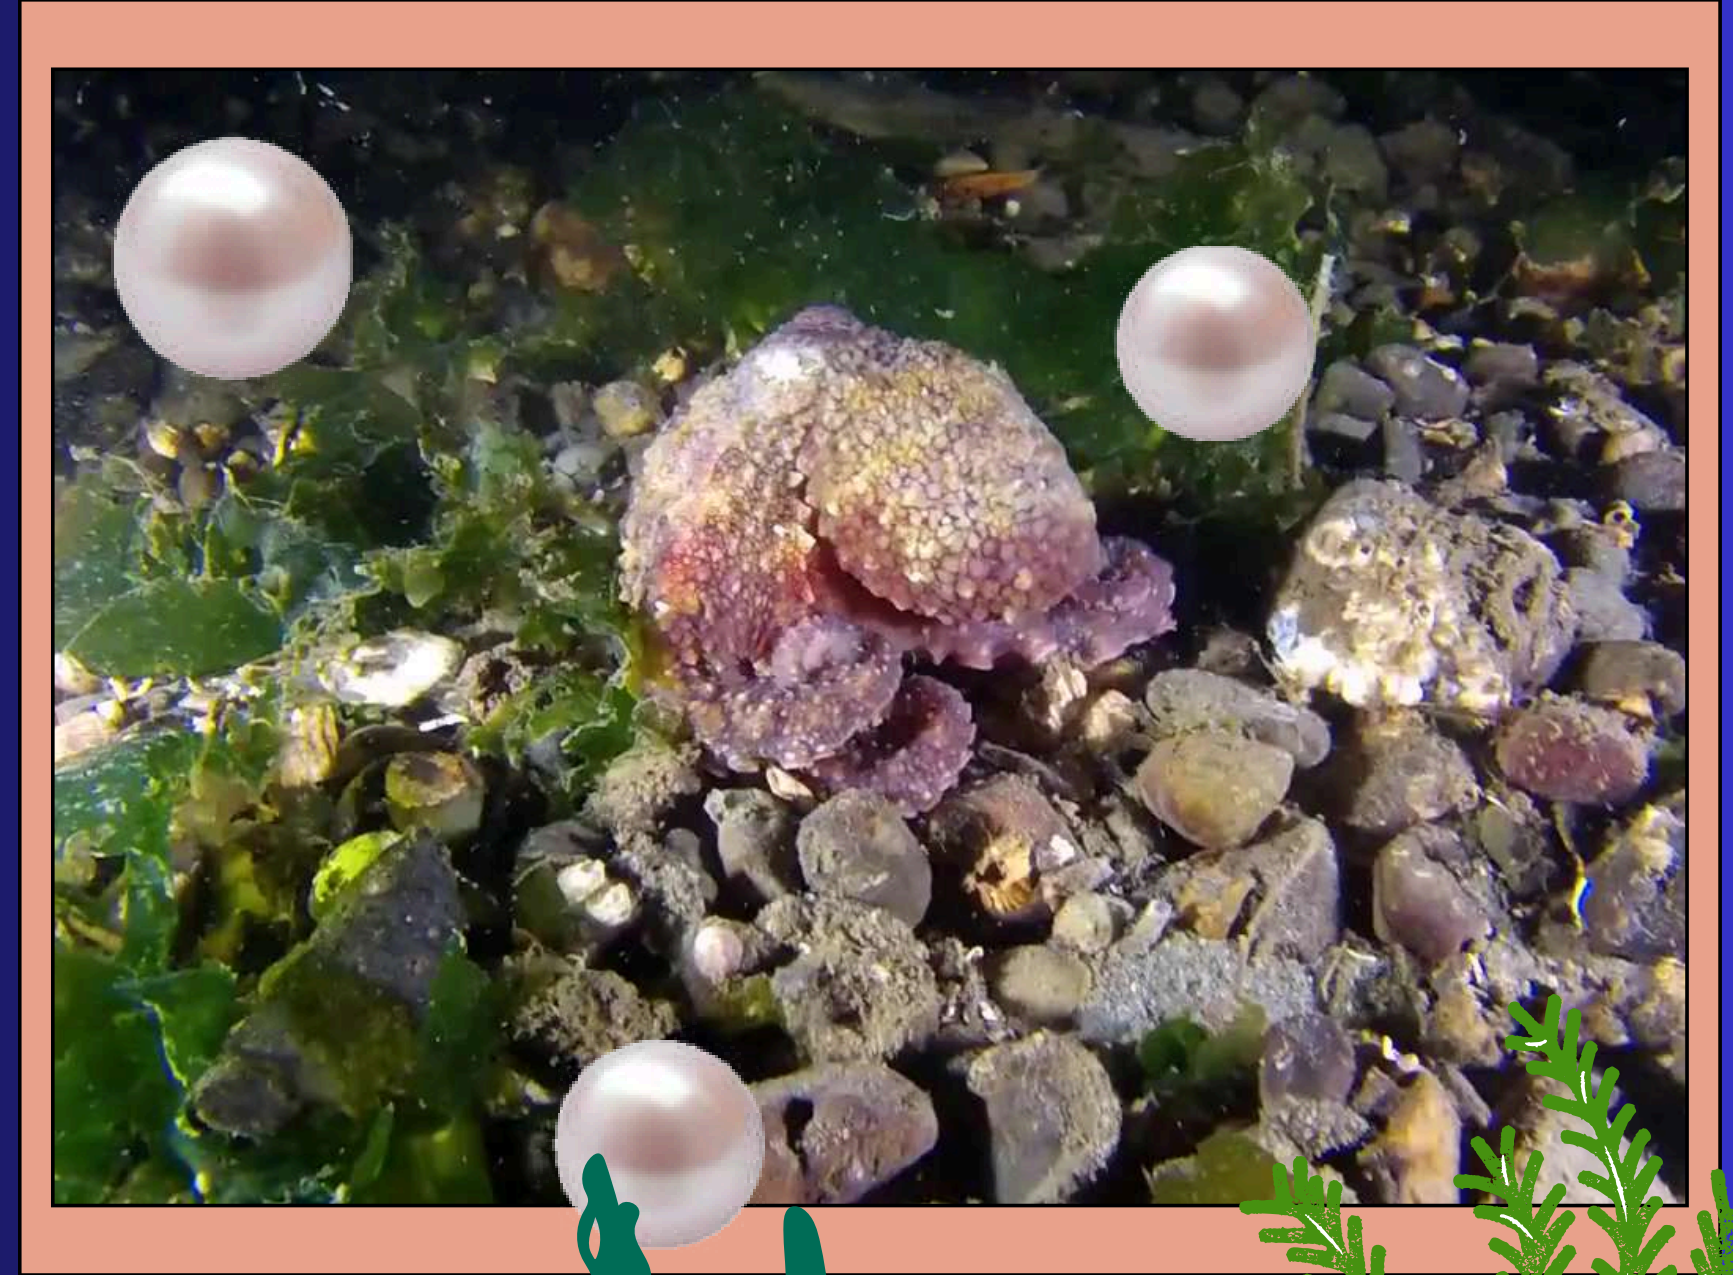

Cuttlefish

CUTTLEFISH ARE FASCINATING CREATURES THAT LIVE IN THE OCEAN. THEY'RE LIKE UNDERWATER WIZARDS WITH THEIR AMAZING ABILITY TO CHANGE COLOR AND SHAPE! CUTTLEFISH HAVE SOFT BODIES AND LONG, WAVY TENTACLES THAT THEY USE TO CATCH FOOD AND EXPLORE THEIR SURROUNDINGS. THEY COME IN DIFFERENT COLORS, LIKE PINK, BROWN, AND EVEN RAINBOW! CUTTLEFISH ARE SUPER SMART AND CAN SOLVE PUZZLES AND LEARN TRICKS. DID YOU KNOW THAT CUTTLEFISH HAVE A BONE INSIDE THEIR BODIES CALLED A CUTTLEBONE? IT HELPS THEM FLOAT IN THE WATER AND STAY BUOYANT. IT IS A SLOW SWIMMER, AND SWIMS BY EMITTING OUT A LARGE QUANTITY OF WATER FROM ITS MANTLE.

Octopuses

OCTOPUSES HAVE EIGHT LONG ARMS AND BIG, CURIOUS EYES! OCTOPUSES COME IN ALL SORTS OF COLORS, LIKE RED, ORANGE, AND EVEN PURPLE. THEY HAVE SPECIAL CELLS IN THEIR SKIN CALLED CHROMATOPHORES THAT HELP THEM CHANGE COLOR TO BLEND IN WITH THEIR SURROUNDINGS OR TO SHOW THEIR FEELINGS. OCTOPUSES ARE SUPER SMART AND CAN SOLVE PUZZLES AND OPEN JARS WITH THEIR ARMS. OCTOPUSES HAVE NO BONES IN THEIR BODIES. THAT'S WHY THEY CAN SQUEEZE INTO TINY SPACES AND HIDE FROM PREDATORS.

Fish

FISH ARE AMAZING CREATURES THAT LIVE IN THE WATER. THEY COME IN ALL SHAPES, SIZES, AND COLORS. FISH HAVE SPECIAL FINS THAT HELP THEM SWIM AND STEER THROUGH THE WATER. THEY BREATHE THROUGH THEIR GILLS, WHICH TAKE OXYGEN FROM THE WATER AND HELP THEM STAY ALIVE. FISH EAT ALL KINDS OF THINGS, LIKE ALGAE, SMALLER FISH, AND EVEN PLANKTON! DID YOU KNOW THAT SOME FISH CAN SWIM REALLY FAST, WHILE OTHERS LIKE TO HIDE IN CORAL REEFS? FISH ARE SUPER COOL AND MAKE THE OCEAN A COLORFUL AND EXCITING PLACE TO EXPLORE!

How can we care for them?

TO CARE FOR AQUATIC ANIMALS IN THE OCEAN AND SEA, WE CAN DO A FEW THINGS THAT HELP KEEP THEIR HOMES SAFE AND CLEAN.

1. DISPOSE OF TRASH PROPERLY: ALWAYS THROW TRASH IN BINS AND AVOID LITTERING TO PREVENT HARM TO MARINE ANIMALS.
2. USE OCEAN-FRIENDLY PRODUCTS: BE MINDFUL OF PRODUCTS LIKE SUNSCREEN AND CLEANING SUPPLIES TO ENSURE THEY ARE SAFE FOR MARINE LIFE.
3. LEARN ABOUT MARINE HABITATS: EDUCATE YOURSELF ABOUT OCEAN ECOSYSTEMS AND THEIR INHABITANTS TO BETTER UNDERSTAND HOW TO PROTECT THEM.
4. PARTICIPATE IN CONSERVATION EFFORTS: JOIN BOAT CLEAN-UP EVENTS OR VOLUNTEER WITH MARINE CONSERVATION ORGANIZATIONS TO HELP KEEP OCEANS AND SEAS HEALTHY FOR AQUATIC ANIMALS.

AQUATIC ANIMALS WORKSHEETS

Worksheet 1. Match the Animal to Its Description

Draw a line to match the aquatic animal to its correct description.

1. Dolphin	1. Has eight arms and can squeeze into small spaces
2. Turtle	2. The largest sea animal that breathes air
3. Jellyfish	3. A strong predator with sharp teeth
4. Starfish	4. looks like a tiny horse and uses its tail to hold onto plants
5. Whale	5. An change colors and has a cuttlebone
6. Seahorse	6. Has tentacles and can sting
7. Octopus	7. Has fins and breathes through gills
8. Cuttlefish	8. Has five arms and can grow them back
9. Shark	9. A smart sea animal that jumps and plays
10. Fish	10. has a shell and hides inside for protection

Worksheet 2: Fill in the Blanks

Use the words below to complete the sentences: (gills, ocean, swim, tentacles, eggs, fins, shell, baby, jump, smell)

1. Fish breathe underwater using their _____.
2. A starfish lives in the _____.
3. Dolphins love to _____ and jump in the water.
4. A jellyfish has _____ that help it catch food.
5. Turtles lay their _____ in the sand.
6. Sharks use their _____ to move quickly through the water.
7. A turtle's _____ keeps it safe from predators.
8. Male seahorses carry their _____ in a pouch.
9. Whales can _____ high out of the water.
10. Sharks have a strong sense of _____ to find food.

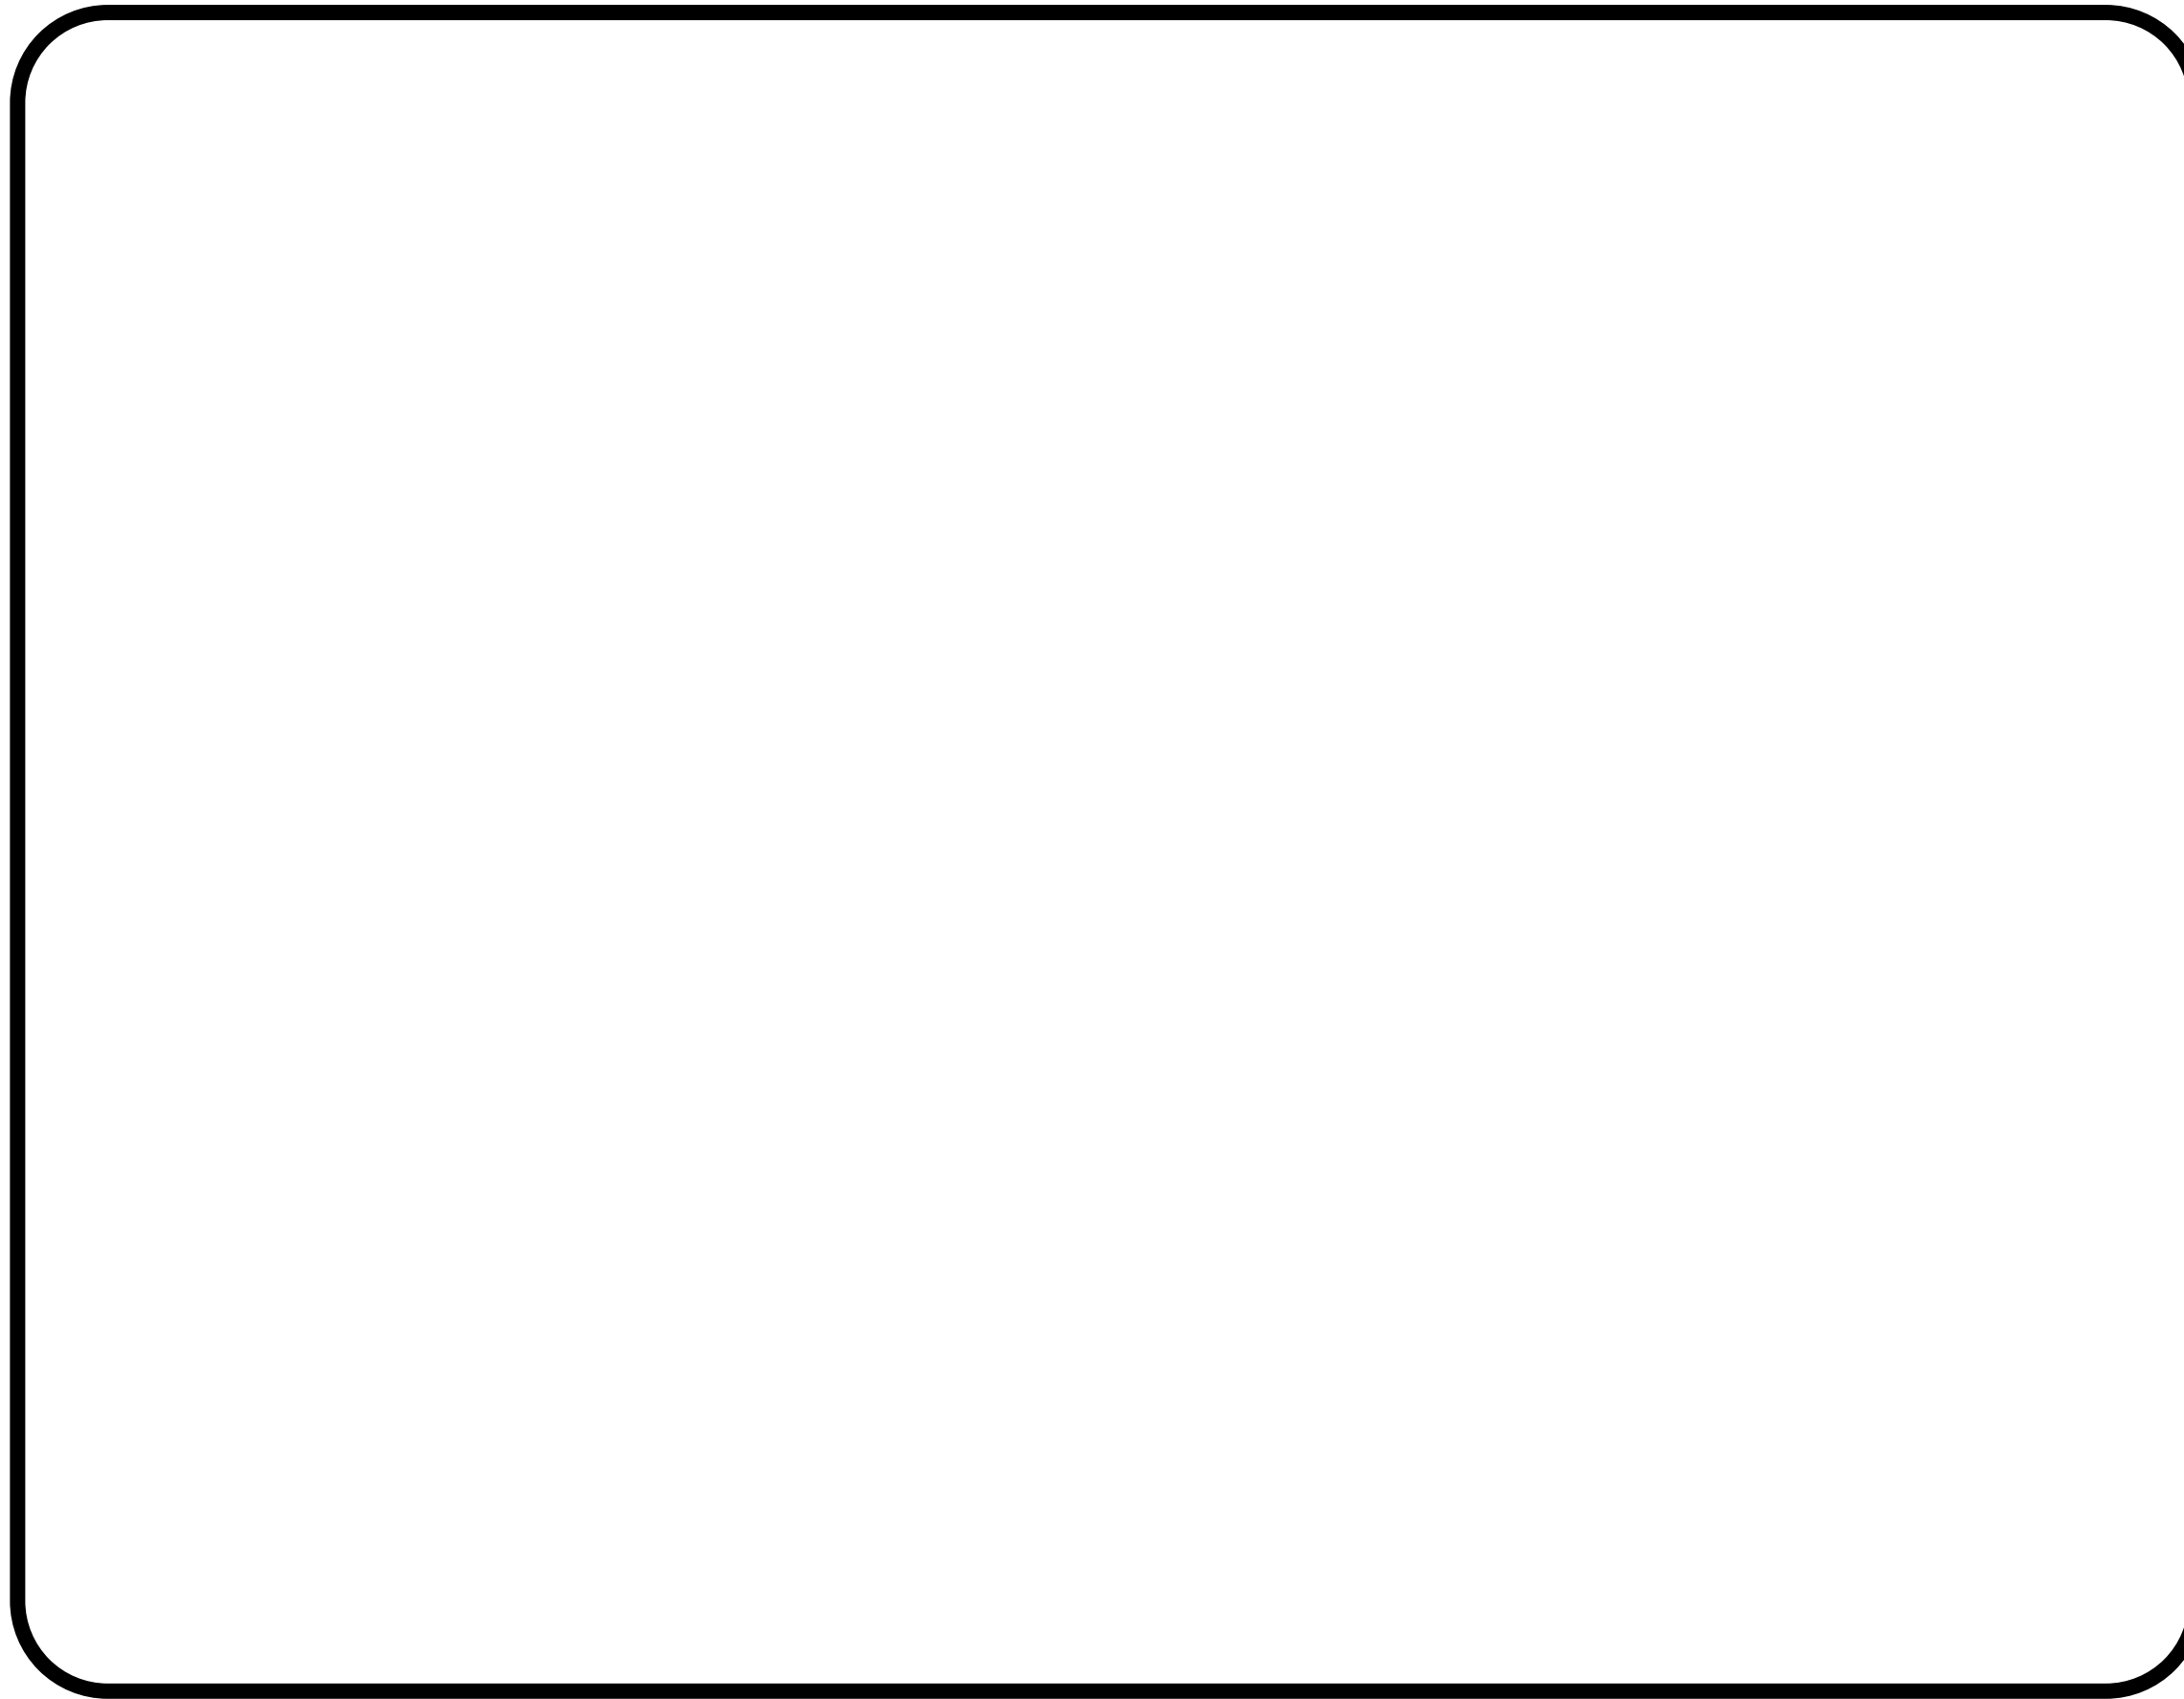

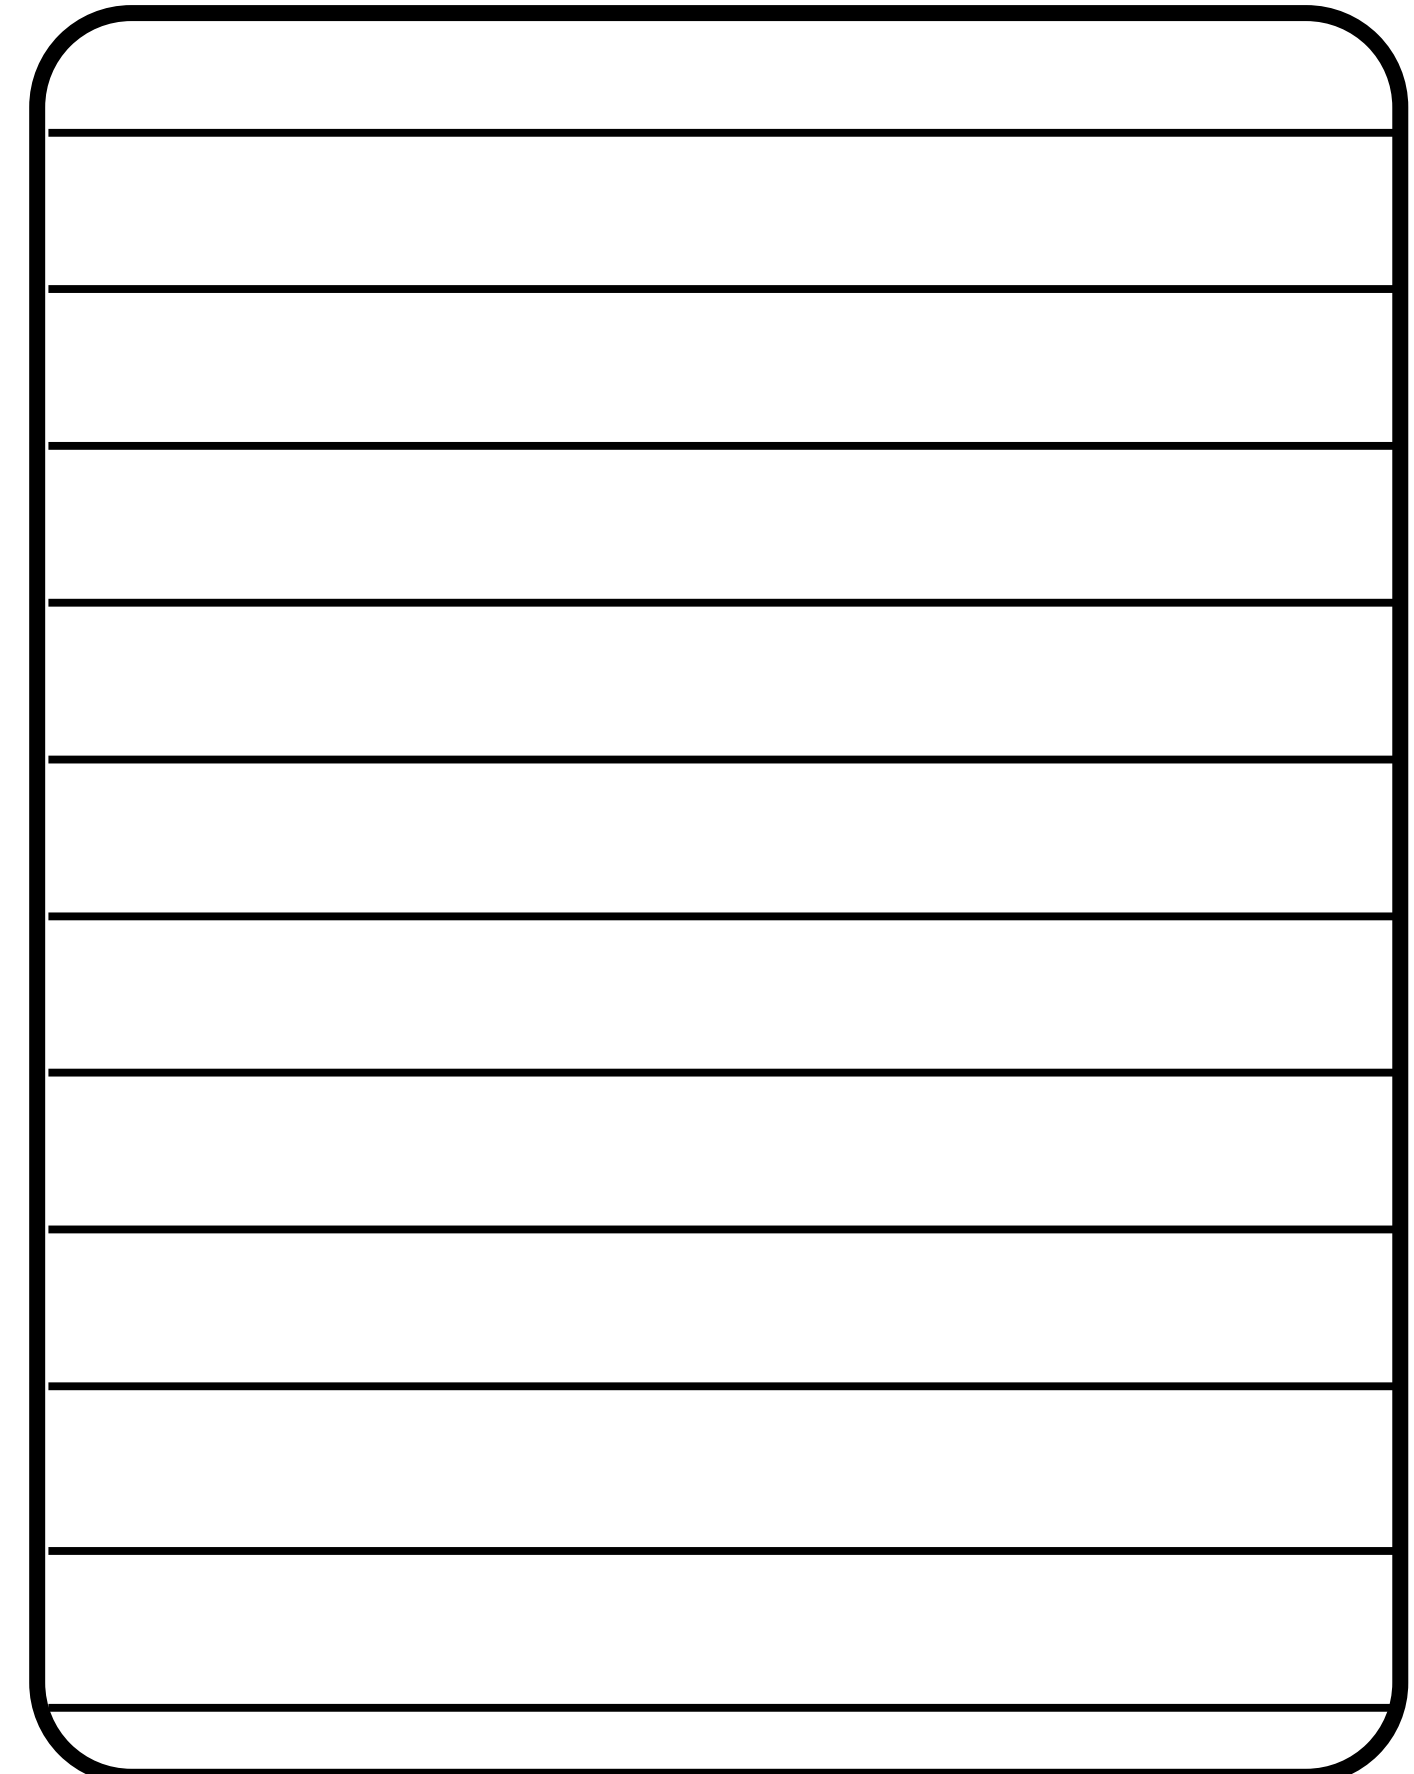

Worksheet 3: True or False

Write T for true or F for false.

1. Whales breathe underwater like fish. (___)
2. Seahorses are strong swimmers. (___)
3. Some fish can swim really fast. (___)
4. Cuttlefish can change their colors. (___)
5. Sharks are the smallest aquatic animals. (___)
6. Jellyfish have bones inside their body. (___)
7. Octopuses can squeeze into small spaces. (___)
8. Starfish can grow back their lost arms. (___)
9. Dolphins communicate using clicks and whistles. (___)
10. Turtles can never go on land. (___)

Worksheet 4: Draw and Color

Draw your favorite aquatic animal. Color it and write 2-3 sentences about it.

A large, empty rectangular box with rounded corners, intended for drawing an aquatic animal.A rectangular box with rounded corners, containing ten horizontal lines for writing sentences.

Worksheet 5: How Can We Protect Aquatic Animals?

Write two ways we can help keep oceans clean and safe for aquatic animals.

1.

2.

Answer Key

Worksheet 1. Match the Animal to Its Description (Answers)

1. Dolphin → 9. a smart sea animal that jumps and plays
2. Turtle → 10. has a shell and hides inside for protection
3. Jellyfish → 6. has tentacles and can sting
4. Starfish → 8. has five arms and can grow them back
5. Whale → 2. the largest sea animal that breathes air
6. Seahorse → 4. looks like a tiny horse and uses its tail to hold onto plants
7. Octopus → 1. has eight arms and can squeeze into small spaces
8. Cuttlefish → 5. can change colors and has a cuttlebone
9. Shark → 3. a strong predator with sharp teeth
10. Fish → 7. has fins and breathes through gills

Worksheet 2. Fill in the Blanks (Answers)

1. Fish breathe underwater using their gills.
2. A starfish lives in the ocean.
3. Dolphins love to swim and jump in the water.
4. A jellyfish has tentacles that help it catch food.
5. Turtles lay their eggs in the sand.
6. Sharks use their fins to move quickly through the water.
7. A turtle's shell keeps it safe from predators.
8. Male seahorses carry their baby in a pouch.
9. Whales can jump high out of the water.
10. Sharks have a strong sense of smell to find food.

Worksheet 3. True or False (Answers)

1. Whales breathe underwater like fish. (F)
2. Seahorses are strong swimmers. (F)
3. Some fish can swim really fast. (T)
4. Cuttlefish can change their colors. (T)
5. Sharks are the smallest aquatic animals. (F)
6. Jellyfish have bones inside their body. (F)
7. Octopuses can squeeze into small spaces. (T)
8. Starfish can grow back their lost arms. (T)
9. Dolphins communicate using clicks and whistles. (T)
10. Turtles can never go on land. (F)

Worksheet 5: How Can We Protect Aquatic Animals?

Write two ways we can help keep oceans clean and safe for aquatic animals.

- 1.** Dispose of trash properly – Always throw trash in bins and never litter in or near water bodies to keep aquatic animals safe.
- 2.** Use ocean-friendly products – Choose eco-friendly products like safe sunscreen and cleaning supplies that do not harm marine life.

There are other possible answers which could include: learning about marine habitats, participating in beach clean-ups, and avoiding plastic waste etc.
